

Product Name

L2

(1200 mm)

Technical description

LED fitting in extruded aluminum square section, direct mono emission, continuous form without structural interruptions, suitable in pendant version, ceiling, wall and recessed no frame. Polycarbonate diffuser with high luminous efficiency. Body in die-cast aluminium according to the regulations UNI 5076 EN - AB 46100. Diffuser made of prismatic technopolymer LED light source and colour temperature (4000 K Neutral White). Very high coefficient of rendering ≥ 90 CRI. Glare value UGR < 19

Supply

Driver included.
Input voltage 220-240 V AC/50-60Hz
Temperature -20° +40°
Life 30000h / 25°

Installation

Suspension, ceiling, wall and recessed no frame.

Size (mm)

1200 x 38 x 38

Colour

White 1

Low Flicker
